Spring 2010

Good Day!

King George VI School is asking for local support for this year's fourth annual Dance a Thon. You can help out by making a cash donation, gift card or prize. To date, the students, along with their families, have raised over \$26,000! We have installed two new playground structures and purchased six SMART boards. This year we hope to raise enough money to purchase SMART boards for the junior kindergarten and grade one classrooms.

King George VI Parent Council members are determined to have the best technology available for our students. Statistics show an improvement in student learning outcomes when SMART boards are utilized in the classroom www.smarttech.com. SMART boards make classroom learning more engaging and effective by helping teachers to streamline their lesson plans. This technology will further motivate students to take control of their own learning and take a greater interest in the learning process.

As a community leader, this is a great opportunity to help promote a positive educational experience!

If you feel this is something you'd like to be a part of, please contact me at the information below. Thank you very much for your consideration.

Thank YOU for helping us to reach our goal!

Sincerely,
